

COL(ret) GURNEY F. PEARSALL Jr., M.D.

Visual Artist & Fine-Art Photographer

Denver, Colorado

info@PhotoFovea.com

PROFESSIONAL PROFILE

COL(ret) Gurney F. Pearsall Jr., M.D. is a Denver-based visual artist whose photographic work bridges the disciplines of medicine, science, and art. His practice investigates perception, symmetry, and the restorative nature of visual balance. Drawing upon decades as a physician and U.S. Army officer, Pearsall applies the same precision and discipline cultivated in surgery and leadership to his photographic compositions. His studio, PhotoFovea, embodies this fusion — the convergence of art and science at the point of focused vision.

PROFESSIONAL EXPERIENCE

Founder & Artist, PhotoFovea | Fine Art Photography — Denver, CO (2019–Present)

- Creates limited-edition fine art prints exploring balance, symmetry, and the meditative qualities of light.
- Exhibits with a focus on contemplative landscapes and visual geometry.
- Integrates advanced photographic post-production and printing techniques informed with surgical imaging precision.
- Mentors emerging photographers in composition, vision, and artistic discipline.

Medical Director, Longevity & Stem Cell Centre — Denver, CO (2000–2019)

- Directed clinical and regenerative medicine programs emphasizing restoration and longevity.
- Utilized photographic methods for anatomical and aesthetic research documentation.
- Developed patient education materials exploring the connection between visual design and physiological perception.

Colonel (Retired), United States Army Reserve Medical Corps (1992–2025)

- Served in senior leadership and operational roles supporting medical readiness and humanitarian missions.
- Awarded multiple commendations for distinguished service.
- Integrated photography for medical education, field documentation, and leadership training.

PROFESSIONAL AFFILIATIONS

- Colorado Photographic Arts Center (CPAC)
- Fine Art America (FAA), Premium Member

ARTIST RESIDENCE & STUDIO

PhotoFovea Studio, Denver, Colorado

Dedicated to exploring the intersection of art, medicine, and visual storytelling.

“In every frame, I seek the intersection of discipline and wonder — the point where vision becomes emotion.”
